

Minnesota Access to Communication Technology (MN ACT) provides FREE phone devices to Minnesotans who qualify.

What is MN ACT?

MN ACT is a statewide service that provides phone devices for Minnesotans who have a hearing loss, speech or physical disability that limits their use of a standard telephone.

You may use these phone devices for free as long as you qualify for the program. Devices are funded by a surcharge on telephone lines in Minnesota.

Minnesota Access to Communication Technology is funded through the Department of Commerce – Telecommunications Access Minnesota (TAM) and administered by the Minnesota Department of Human Services.

What devices are provided?*	How does this device help?
Amplified phones	Volume control and tone adjustment options can help you hear and understand what the other caller is saying.
Bluetooth streamer	A Bluetooth streamer can connect directly to your hearing aid or cochlear implant, eliminating background noise and giving you more volume control.
Captioned telephones	This shows you what the other person says in text on a display screen.
Electrolarynx and voice amplifiers	If you have a speech disability these devices may help you be understood on the phone.
Ring signaling devices	Loud ringer or flashing lights help you relax knowing you won't miss a phone call.
Smartphones and tablets	With telecommunications apps a smartphone or tablet can improve access to phone calls.
Smart speakers	Uses Bluetooth technology to support hands-free phone calls if you have a physical disability.

*The device(s) you receive will depend on your needs.
