IN OUR COMMUNITY

myHealth's services reach people all over the Twin Cities and surrounding areas of all races, faiths, cultures, gender identities, sexual orientations, and backgrounds.

In a year, we provide over **600** school and community presentations in more than **100** locations. We provide health education to **20** school districts.

Pay what you can

myHealth is a non-profit resource for young people and the adults that support them. We accept most forms of health insurance. For the uninsured, clinic fees are charged on a sliding scale, and no client is ever turned away based on ability to pay. If you have questions, please stop by the clinic or give us a call.

We welcome visitors and encourage community members to schedule a tour of our clinic.

Inclusive, Low-Cost Health Care
for Ages 12-26

We're here for you!

Our SERVICES

myHealth for Teens and Young Adults takes a holistic approach to health that is tailored to medical, emotional, and social needs. We focus exclusively on health and education for young people and the families, educators, and community organizations that support them.

We serve clients from ages 12 to 26. Parents and friends are welcome to accompany clients to appointments at the client's discretion. We work with interpreter services for all languages.

All services are confidential for clients 18 or older. Reproductive health services are confidential for all clients, regardless of age.

Our HISTORY

myHealth was founded in 1972 to provide reproductive services to a part of the community that wasn't being served. Since then, we have expanded our scope to offer *Primary Care*, *Mental Health* services, the *Becoming Program* for teen and young adult parents, and *Education Services* to connect the young people of our community to healthier futures.

First as West Suburban Teen Clinic, and since 2012 as myHealth for Teens and Young Adults, we have provided reduced-cost and no-cost care to young people of all backgrounds.

Our STAFF

myHealth staff is attuned to the unique physical, emotional and social needs of young people. Our staff of clinicians and educators have specialized training and experience working with teens and young adults. They work to ensure that our clients understand they are welcome, respected, and valued. We are committed to fostering an atmosphere of trust and rapport that encourages young people to take advantage of the services we offer.

Together, we strive to consistently provide complete and accurate health information to support young people in making responsible and well-informed decisions about their health. We strongly believe that access to factual information as well as sensitive, comprehensive services designed specifically for youth promotes responsibility, reduces risky behavior, improves health outcomes, and enhances lifelong well-being.

Traveling Nurse Services

Let us visit you!

At myHealth, we understand that not everyone can easily make it to our Hopkins clinic. If that's you, you may be able to benefit from our traveling nurse program!

If you are ages 12-26, live in Western Hennepin, Scott, or Carver County and do not have a way to get to our Hopkins clinic, we have a traveling nurse that can meet you in your home, school, or a community location.

Call or text the traveling nurse at 952-491-1317 to schedule a traveling nurse visit or ask a question about the program.

What about the cost?

The Becoming Program

We're here for you

Pregnancy and parenthood can be exciting and overwhelming at any age. We at myHealth and the Becoming Program are here to help young parents navigate the complexities of parenthood for free!

The Becoming Program supports:

- Pregnant people whether they plan to parent or adopt.
- Young mothers or fathers already parenting.

Our Becoming Program case managers are public health nurses experienced in working with young people and providing accurate information and education in a supportive, non-judgmental way.

Interested?

If you are pregnant or parenting, ages 12-26, live in Carver, Scott, or Western Hennepin county, and would like to learn more or join the Becoming Program, email or call us!

How much will I be paying for my services today?

Depending on the type of healthcare services you'd like to receive (general or reproductive) and the type of insurance you have, the overall cost of your services can vary. The type of healthcare you are seeking and the insurance you have also impacts your ability to keep your services confidential. Regardless of whether you have insurance or not, myHealth is dedicated to providing affordable services for everyone. myHealth can help you sign up for the Minnesota Family Planning Program (MFPP), a free and confidential state insurance program. Additionally, myHealth provides a sliding fee scale for those that may not be able to afford their services. The following chart display the insurances we accept and the costs associated with them.

myHealth Education Topics

Student Education

- Stress Management
- Mental Health
- Healthy Friendships/Relationships
- Bullying & Bystander Intervention
- Body Image & Gender Norms
- Gender & Sexuality
- Boundaries & Consent
- Social Media Safety
- Vaping
- Puberty, Anatomy & Hygiene
- Sexual Decision Making
- STIs (Sexually Transmitted Infections)
- Safer Sex Methods

Family Education

- **Growing Up:** A workshop is for caregivers and their child(ren) (ages 8–12) that provides a fun and informative way to take some of the mystery out of puberty and the questions out of adolescence. It's always a big hit with parents/caregivers and kids alike!
- Social Media/Internet Safety
- Redefining Wellness

Parent/Caregiver Education

Parents as Sexuality Educators: This class helps parents identify values and messages they would like to share with their children, learn typical stages of sexual development for children and adolescents, and discuss effective communication skills when talking about various sexuality topics. Our approach aims to build confidence so parents can communicate their values (whatever those may be!) and feel comfortable having conversations with their child(ren). We have offered this class to parents with children as young as 2 and as old as 14.

Parent Toolkit

A series of classes that can be taught one after the other over a few months, or can be stand alone classes.

Topics include:

- Healthy Friendships/Relationships
- Social Media Safety
- Mental Health
- Redefining Wellness
- Pornography
- Sexting

Parent & Family Workshops

WITH MYHEALTH FOR TEENS & YOUNG ADULTS
